

ANALYTICAL SERVICES, INC.

It's a Matter of Quality!

Lead on Polyester Film Standards

Analytical Services, Inc. has developed Lead (Pb) standards on polyester film substrate that satisfies ASTM work order WK21957 for XRF methods.

Analytical Services, Inc. now has Pb standards on polyester film substrate available as a standard catalog item. There are two sets available at this time; one set is on 2 mil film and the other is on 5 mil film. Both sets contain six standards with the concentrations of Pb on film ranging from 0 to approximately $12\mu\text{g}/\text{cm}^2$.
